A Product of SOO Official Publishing (Rhythm & Bongo) | April 2026

ARTIST PROFILE & REAL-TIME METRICS (APRIL 2026)

Belle 9 (@belle9tz) is Tanzania's rising R&B/Bongo Flava powerhouse with **~929K Instagram followers** and **~13K Spotify monthly listeners**. Top track "Super Woman" has surpassed **1M streams**.

EAST AFRICA BASE

Strong social footprint and regional audience provide the launchpad for the English-language breakthrough.

BENCHMARK TARGETS

Diamond Platnumz: ~1.8M monthly listeners. Zuchu: ~360K. Top Nigerian, Kenyan, and South African acts: 2M-15M+.

PROJECTED OUTCOME

Marvel-inspired cosmic visuals plus a professional rollout target 100K-500K+ monthly listeners within 12 months.

English Project = 7x-10x Overall Growth

Global playlisting + higher-value streams + crossover appeal.

WHY ENGLISH MULTIPLIES REVENUE 7-10X

- US/UK/EU streams pay roughly 10x more than African streams: ~\$3-\$4 per 1,000 US streams versus ~\$0.30-\$0.40 in Africa.
- English unlocks global Spotify, Apple Music, TikTok, sync licensing, and collaboration opportunities.
- The Mavin Records blueprint proves Africa-first English/Pidgin hybrids can scale worldwide while keeping home-base dominance.
- Belle 9's R&B sound translates naturally for international radio, playlists, and brand partnerships.

PUBLISHING & ROYALTY MAXIMIZATION STRATEGY

Never leave money on the table.

TANZANIA / AFRICA

Register all songs and masters with COSOTA + TAMRISO, then activate reciprocal collection across Africa.

US / INTERNATIONAL

Join ASCAP or BMI for writer and publisher collection, plus SoundExchange for digital performance neighboring rights.

GLOBAL ADMIN

Partner with Downtown Music Publishing Africa or Songtrust for mechanicals, sync, and international royalty collection.

EUROPE

Use reciprocal societies such as PRS and GEMA for flow-through performance royalties.

Result: full catalog audit + 100% capture of radio, streaming, sync, and performance royalties worldwide.

STEP-BY-STEP DEF JAM- STYLE ALBUM BUDGET

Total Project Budget: **\$250,000-\$450,000** for production and marketing, scaled to aspirational major-label impact and maximum global ROI.

Phase	Key Activities	Budget Range	ROI Focus
Pre-Production	Songwriting, demos, publishing registration, artwork concepts	\$5K-\$10K	Marvel comic + cosmic aesthetic locked in
Production	Recording 5-6 tracks, top producers, mixing/mastering	\$80K-\$150K	Prime-time R&B quality
Post-Production	Final mixes, mastering, video treatments, physical assets	\$15K-\$25K	CD, vinyl, and digital assets
Marketing & Release	Tiered rollout, PR, radio, digital ads, tours	\$150K-\$265K	Data-driven Mavin + Def Jam tactics

Total**Full Def Jam-level
campaign****\$250K-\$450K projected 7-10x
revenue multiplier**

FINANCIAL SECRETS FOR HUGE ROI

- Data-driven A&R and drip campaigns modeled after Mavin rollouts.
- Sync licensing early for TV, ads, films, and brand content.
- TikTok challenges for "Get Busy" and IG Reels pushes for "Magnetic."
- Physical and merch bundles for die-hard fans.
- Tour support starting East Africa, then Europe and the US.
- Weekly ROI tracking through Spotify for Artists, Chartmetric, and social listening tools.

Break-even target: ~150K-300K streams plus merch and tour sales.

TIER-BASED MARKETING PLAN

TIER A: WORLDWIDE

\$200K-\$300K. Full Def Jam push: US/EU radio, major playlists, press, global TikTok/IG ads, tours, and sync deals.

TIER B: PARTIAL WORLD + AFRICA

\$120K-\$180K. Heavy Africa + selective US/EU playlisting, pan-African radio, and brand partnerships.

TIER C: AFRICA + EUROPE

\$80K-\$120K. Africa-wide radio/TV plus European Afrobeats circuits, diaspora marketing, and festival bookings.

TIER D: TZ/ZANZIBAR + EAST AFRICA

\$40K-\$60K. Local radio saturation, Zanzibar festivals, geo-targeted social ads, street teams, and physical CDs.

TIER E: EAST AFRICA

\$25K-\$40K. Regional radio, cross-border touring in Kenya and Uganda, and song-specific social challenges.

TIER F: TANZANIA/ZANZIBAR

\$10K-\$20K. Hyper-local radio, club promo, IG Stories, and community events.

Africa-first Mavin model -> global domination through narrative videos, song challenges, brand syncs, and real-time optimization.
